Activate Plans: Emergency, Economic Resilience, Business Continuity

- Ensure your staff, volunteers, contractors are accounted for and safe.
- Ensure your facilities are safe and secure in the event of evacuation.
- Update your clients of the situation and start collecting impact data; refer to any information and supports from trusted sources. Track your actions. Flag issues brought forward. Contact the EQRRT for templates.
- Connect with partners early to start the conversation about response and recovery.

Connect to Your Local Emergency Operations Centre (EOC)

If you have built a relationship with local emergency managers, contact them now. If you have capacity, offer to be an Economic Liaison between the EOC and businesses.

If you have no connections, contact the EOC to let them know what CF is and its capacity. The EQRRT can provide guidance.
